Community Based Outpatient Clinics (CBOC)

CBOCs are similar to a doctor's office. Veterans may receive Primary Care, Behavioral Health, and other services such as lab work at the CBOCs; while relying on the Erie VA Medical Center for specialty treatment not available at the CBOC locations. Telehealth Services have helped to bring more specialty services to the CBOCs, but it is not appropriate for all types of appointments, so be sure to check with your Primary Care Provider to see if this is appropriate for you!

Enroll in VA Health Care Today

Do you know a veteran who may be eligible for VA health care? All Veterans are encouraged to apply for benefits.

Our five-star facility is committed to improving the lives of Veterans by providing world-class care.

In this section, we address and debunk common myths that keep many Veterans from applying for benefits. Help us spread the word and open doors for fellow Veterans to see if they qualify today.

MYTH #1

"I did not serve in combat/I wasn't injured in the service, so I'm not eligible for VA health care."

FACT:

If you served in the military – even during peacetime – in the active military, naval, or air service, and are separated under any condition other than dishonorable, you may qualify for VA health care benefits.

MYTH #2

"I do not want to go to the VA because I want to save those appointments for those who really need them."

FACT:

We receive funding based on the number of Veterans who use our services. You do not reduce the opportunity for other Veterans to receive care, in fact, you increase the chances for them to benefit from our services.

MYTH #3

"I make too much money, so I have never applied for VA care."

FACT:

It is not all about income. There are many other factors taken into consideration when applying for VA health care. Other factors may include service-related injuries or illnesses such as exposure to Agent Orange, time and location of service, former Prisoner of War status, or Purple Heart

Medal recipients.

MYTH #4

"I want to go to the VA, but I do not want to lose my private health insurance."

FACT:

Assuming you are eligible for VA health care, you do not need to give up your private health insurance. You can keep your own insurance and seek health care from the VA as well – the best of both worlds.

MYTH #5

"I have a serviceconnected rating or disability rating through the VA, so I am already enrolled in VA health care."

FACT:

Receiving benefits through the Veterans Benefits Administration (VBA) does not automatically enroll you in VA health care. You must apply to the Veterans Health Administration (VHA) for a determination. The good news is a service-connected disability is a qualifying eligibility factor!

Where to Start:

Eligibility & Enrollment

If you served in the active military, naval, or air service and are separated under any condition other than dishonorable, you may gualify for VA health care.

Current and former members of the Reserves or National Guard who were called to active duty(except for training)by a federal order and completed the full period for which they were called or ordered to active duty, may be eligible for VA health care. All those who served in the military – including those who served during peace time – are encouraged to apply for health care.

THREE WAYS TO APPLY

In Person at the Erie VAMC Eligibility Office, located on the first floor near the main entrance, between the hours of 8:00 a.m. and 4:30 p.m. – please bring:

- A copy of your DD-214 (member 4) military discharge papers
- A copy of both sides of your current insurance card (including Medicare or Medicaid)
- Information about your household finances.

Online at **va.gov/healthbenefits** to complete and submit the eligibility form.

By Phone at 814-860-2970 or toll-free at 800-274-8387 and press 4.

For more details, visit **www.va.gov/healthbenefits/ vhbh** to review the VA Health Benefits Overview

Please note, having a VA-rated service-connected disability, receiving a compensation and pension exam, and/or filing for a service-connected condition does not automatically enroll you in VA health care. You still must fill out a 10-10EZ health care application form. If you have a service-connected condition, please inform our eligibility department of this to ensure you are placed in the appropriate Priority Group and co-pay status for health care services.

VA PRIORITY GROUPS

Visit www.va.gov/health-care/eligibility/priority-groups for details.

When you apply for VA health care, you will be assigned to 1 of 8 priority groups. This system helps ensure Veterans who need immediate care are enrolled quickly. It also helps us provide high-quality care to all Veterans enrolled in VA health care.

If you do not know your priority group, please contact the eliqibility department at **814-860-2970**.

Priority groups may be adjusted based on changes to income or service-connected disability ratings.

VA HEALTH CARE COPAY RATES

Visit www.va.gov/health-care/copay-rates for specific copay rates.

Depending on priortiy group assignments, copays may be required for medication, urgent, outpatient, inpatient, geriatric, and extended care services.

Please note: Veterans determined to be exempt based on income level, disability rating, or other special eligibility factors, are not subject to copayments.

If you served in the military, you may be eligible for VA health care. Act now – online, in-person, or by phone!

Visit the Erie VAMC Eligibility Office between 7:30 a.m. - 4:30 p.m. and bring your DD-214. Call 814-860-2970 or toll-free 1-800-274-8387 to speak with an eligibility representative.

WHAT TO DO WHEN YOU ARE ENROLLED IN VA HEALTH CARE

Upon confirmation of eligibility and enrollment in VA Health Care, you will receive a Veteran Health Identification Card (VHIC). Make an appointment to meet your Patient Aligned Care Team (PACT) to begin receiving care.

VETERANS HEALTH IDENTIFICATION CARD

Once enrolled in VA health care, you may use your VHIC to check in VA appointments. Contact the Eligibility Office at 814-860-2970 or your local Community Based Outpatient Clinic (CBOC) to have your picture taken and to process your card. The VHIC will be mailed to your home addess within 6-8 weeks.

SCHEDULE YOUR FIRST APPOINTMENT

To arrange your first primary care appointment, call the Erie VA Medical Center at **814-868-8661 and press 2**. Erie VA Primary Care Clinics operate Monday through Friday with Saturday and Sunday appointments as needed. We offer three types of appointments based on the level of care you require:

- Routine & Follow-Up Appointments: regular appointments are scheduled in advance for routine check-ups and/or lab work.
- Access Appointments: same day appointment for medical problems or symptoms.
- Virtual and/or Phone Appointments: Patient Aligned Care Teams may resolve issues by phone or virtually when a face-to-face appointment is not necessary.
